

## **STATEMENT OF PURPOSE**

### **RS21720**

The licensing of service companies was originally included in the manufactured housing licensing statute under the mistaken belief that such licensing was required by the U. S. Department of Housing and Urban Development. H.U.D. does not require such licensing and this bill repeals that requirement. The bill also amends the provisions for background checks for the other categories of licensing to make them consistent with Idaho State Police Procedures.

## **FISCAL NOTE**

No impact on the General Fund.
